

# Patient and Family Council

Valued for the knowledge and experience they bring, patients, parents and family members fill an essential role in the Midwest Genetics Network (MGN). The unique perspective of individuals with genetic conditions and their families helps MGN meet its goal of increasing access to genetic services in ways that are meaningful and impactful.

The Patient and Family Council (PFC) meets monthly to identify, create, and share resources for families of children with genetic conditions. They also provide input on other MGN projects to ensure the patient and family voice is included.

## Current Projects

- Developing a mobile app based on the Journey through Diagnosis guidebook
- Adding family videos to the mobile app
- Cultivating a list of vetted resources for families on the MGN website

## Interested in Joining?

For more information about joining the Patient and Family Council contact Kristen Reese, Parent Coordinator at [info@midwestgenetics.org](mailto:info@midwestgenetics.org)
